Declaration of REACH Compliance

Product Type:	Industrial Communication Module
Model Series:	PLX51
Model Option:	PLX51-X where –X may be any combination of characters

ProSoft Technology declares that, to its knowledge as of the date of this document, the products listed above conform to the requirements of the EU REACH Regulation EC 1907/2006. To the best of our knowledge we have determined the products do contain one or more of the 209 Substances of Very High Concern (SVHCs) listed in the June 25, 2020 Candidate List. REACH SVHCs which are not found on the Authorization List are not restricted but must be declared in accordance with REACH Article 33. Based on the information available, the products contain the following SVHCs:

Substance	CAS	EC
Diboron Trioxide	1303-86-2	215-125-8
Lead	7439-92-1	231-100-4
Lead Monoxide (lead oxide)	1317-36-8	215-267-0
Hexahydromethylphthalic anhydride	25550-51-0	247-094-1
4, 4'-isoproplylidenediphenol (BPA)	80-05-7	201-245-8

In addition, to the best of our knowledge we have determined that there are no substances described in REACH ANNEX XVII present in PLX51 products.

Because the PLX51 products are complex products, an assessment is performed of individual components as directed by the European Court of Justice. ECHA notification is not required for our products because they do not exceed a volume of one ton per year, nor are humans or the environment exposed to the substances during normal or reasonably foreseeable conditions of use.

This declaration is based on ProSoft Technology understanding of the requirement of the REACH Regulation and knowledge of the material that go into its products. ProSoft Technology bases its knowledge on information provided by third-party suppliers and makes no representation or warranty as to the accuracy of such information. ProSoft Technology continues to take steps to obtain accurate information from suppliers but has not conducted descriptive testing or chemical analysis on incoming materials to verity material composition.
